July 7th 2021 Meeting Minutes

Meeting – Bob Hill called the meeting to order at 6:30pm.

Board members in attendance – Bob Hill, Dennis Albee, Ken McNurlen, Karl Eckerle, Ron Helmer.

Members in attendance – Tom Jared, Luther Bitler, Greg Gavit, Chris Peters, Gene Thompson, Robert Ebach, Jim Poznel, Art Beagle, Mike Nentwig.

Old Business

\$4100 total donated to the runway so far. Waiting to schedule end of July or beginning of August to finish cap the runway. Like to have them bring some cribbing as the field is about as dry as it will be due to the summer rains. After the runway is completed there will be a work effort to move back dirt around the edges of the runway. May be completed before or after the air show. Approximately two feet of dirt. Stay tuned for further details.

Pilot training – Five students currently and congratulations to Chris Peters the newest pilot to graduate the training program.

Discovery flight day – About 7 participants but the weather was very windy. Try to get more participation for the future. Proposed to get into schools in an assembly format/learning program as well to build interest. Farmer's market was proposed as a way to get our group out as they allow nonprofits to have a table in Freeland or Midland. Scheduled for time close to air show or discovery flight day to build foot traffic for the club events.

Electric fly – Event went well but was very windy.

New Business

Discussion of family picnic day.

FAA/AMA trust safety test – Test for everyone flying unmanned aircraft. 20-25 questions in paragraph/questions format. Everyone is required to take the test. You will get a certificate upon completion. Karl and Mike Wentworth went through the test already and said its multiple choice, not very complicated, read the paragraph and answer the questions after reading the section. Broken up into multiple sections. Go to AMA website and search “trust safety test”. When completed you are registered on the FAA registry. There is no end date that it has to be completed by at this time, but it was heard that we have two years to complete the test. Club position is it is your responsibility to compete test and FAA registration, we will not be policing it.

One trustee position was open and Chris Peters volunteered to fill the spot. Elections are in January for all club officer positions. People should express interest and candidates will be listed in the November newsletter.

Start thinking as a club on a charity for the air show donation. Bring suggestions for the board.

Bob Hill called the meeting to a close at 7:10pm

Club Calendar

Aug 7th- Combustion engine fly Mike Curreri.

Aug 14th- National model aviation day fun fly Jerry H. Sept 10th- Air show setup.
