September 1st 2021 Meeting Minutes

Meeting called to order at 7:30pm by Bob Hill.

Members in attendance – Jim Pozenel, Jerry Hahnfeld, Frank Lee, Mike Wentworth, Mike Curreri, Ron Helmer, Dennis Albee, Chris Peters, Bob Hill, Karl Eckerle, Steve Zahm, Jim Burley, Mike Nentwig. No Visitors.

Minutes approved from last meeting.

Treasurer Report - Money spent; coffee cups (to be sold), runway paint, electrical repairs, filled fuel drum, porta-johns. Money in; coffee cups, donations from Model Aviation Day and for runway.

Old Business

1. Runway Grant Project - Karl broke down the money spent. Lines have been painted. Do we need to fill edges? – will discuss runway maintenance at next month's meeting. Jerry has finished the report for the Midland Community Foundation. Thank you Jerry.

2. Pilot Training – Another new pilot- congratulations Jim! Two others still in training.

3. Combustion Engine Fly August 7 – Fun was had by all, 13-16 attendees. Thank you Mike C. for hosting this event.

4. National Model Aviation Day August 14 – Good turnout. Everyone had lots of fun. There were 3 competitions. Bob won "timed flights". Dennis won "ROOPs" (roll, loop, roll, loop). Paul won "bombs away". A good amount of donations were received for Midland Senior Services. Thank you Jerry for hosting this.

5. Replacement Elec. Panel – Main box was destroyed by flood and main breaker was cracked. Lon donated a box so we only bought breakers and other parts. Thank you Lon, Mike W., Karl, and John for getting our electrical problems resolved.

6. Air Show – A handicap porta-john will be ordered. Bob will put up large signs, with arrows covered with show date and time on M-20 and Posseville Friday afternoon. Show starts at 10:00. We need people to help work. Please be there at 8:00. Mike C. is having someone from Midland Senior Services come out at 1:30 to accept the donation check. Karl will write the check. We need people for 50/50, parking, and pilot registration. Canopies need to be set up towards the ends of the runway so not to block spectators. Randy will announce again this year. National anthem flag fly will be at 10 and 1. Combat at 11 and 3. Mock pylon racing, FPV demonstrations, war bird fly will also be done. The candy drop will be at 2. This is a sanctioned event so no maiden flights or heavily repaired flights. Do everything safely. Ron emailed other clubs about the event. Thank you everyone for pitching in.

New Business

1. Cub Scout Rocket Launch – Jerry will be hosting this event. It will be on Sunday, Oct 10th with a rain day on Oct 17th. It will be in the afternoon and there will be no food. Time to be determined.

2. EAA Breakfast – We need about 6 people to be there by 6:30 to help park planes. Bring a plane for static show if you would like.

3. Fall Float Fly – Starts at 10, gates open at 9. Stratford Woods Park, 3922 E Ashman St, Midland.

4. What topics for winter meeting programs would you like to see? Please come up with some ideas. Starts in October.

5. All club officer positions are up for election this year except two trustees. We need nominees by the December meeting. The election will be at the January meeting.

6. It was asked if the club would like to do a project build this winter? If so what model would you like to build? One suggestion was Dennis's Albatross? Building a free flight model was also suggested.
